Through education, people can make sense of their experiences and learn how to take care of themselves and others.

We believe that by recognising resourcefulness, talents and skills, people become experts in their own health and wellbeing and can make informed choices to achieve what they want in life.

Our values and ethos

- We value people as experts in their own lives.
- We value that everyone has strengths and skills.
- We value that people can make their own life choices.
- We value that people can share their expertise for the benefit of others.
